<td>Technical Capability</td>
<td>Founded in 1985, with headquarters in Alexandria, VA, Plexus is an employee-owned small business offering business solutions that help federal agencies improve their performance in accomplishing their missions. Plexus’s business solutions are aimed at enhancing workforce capabilities; increasing operational efficiencies; enriching customer service; supporting decision-making; improving transparency, accountability and reporting; and fulfilling regulatory requirements. We provide these benefits through knowledge management and learning solutions; business process management solutions; custom software development, Section 508 and translation services; business intelligence and analytic solutions; and performance management and reporting solutions. We offer many advantages including Capability Maturity Model Integration (CMMI) Level 3 and International Organization for Standardization (ISO) 9001:2008 certifications that enable us to consistently deliver high quality solutions.</td>

|                                                                        | POP: 05/02/08 – 09/30/13  
|                                                                        | Contact: Djeri Memene, djeri.memene@hhs.gov 202-690-6559  
|                                                                        | Plexus implemented its proprietary Program Performance Manager™ (PPM) software platform to serve as a Program Performance Tracking System (PPTS) for HHS and all of its subsidiary agencies. This solution collects and tracks annual performance targets and results, and generates annual GPRA reports that are used by Congress to support budget decisions. During this contract, Plexus integrated PPM with a leading Business Intelligence tool to provide ad hoc reporting and analytic capabilities. Also during this contract, Plexus developed a custom module for Risk Management that is used by HHS across 300 programs to identify, track, and manage programmatic risks.  

3. BLM Automated Fluid Minerals Support System (AFMSS)
   Contract Number: L13PC00010
   POP: 12/19/12 – 12/18/13
   Contact: Kim Gomez, kgomez@blm.gov, 360-647-9139
   Plexus worked with BLM to implement a workflow automation solution to replace three outdated systems used by oil and gas operators to submit applications for permits to drill on Federal leased lands, and for BLM to manage the review and approval of the drilling permits, and to manage the subsequent inspections and enforcement of drilling regulations. During this project, Plexus consolidated 43 legacy Informix databases into a single, integrated Oracle database and implemented constraints to greatly improve the quality of data being collected.

* Denote Large Business or Small Business: If Small Business identify if any of the following apply:
  1.) Small Disadvantaged Business
  2.) Woman-Owned Business
  3.) HUB Zone Representation
  4.) Veteran-Owned Small Business
  5.) Service Disabled Veteran Owned Small Business
  6.) Emerging Small Business

** Identify which of the following applies:
  1.) $1M or less
  2.) Over $1M to $2M
  3.) Over $2M to $3.5M
  4.) Over $3.5M to $5M
  5.) Over $5M to $10M
  6.) Over $10M to $17M
  7.) Over $17M

*** Functional Areas Identified in the SOW:

3.1 Research and development support
3.2 Engineering, system engineering and process engineering support
3.3 Modeling, simulation, stimulation, and analysis support
3.4 Prototyping, pre-production, model-making, and fabrication support
3.5 System design documentation and technical data support
3.6 Software engineering, development, programming, and network support
3.7 Reliability, maintainability, and availability support
3.8 Human factors engineering support
3.9 System safety engineering support
3.10 Configuration management support
3.11 Quality assurance support
3.12 Information system development, information assurance, and information technology support
3.13 Ship inactivation and disposal support
3.14 Interoperability, test and evaluation, trials support
3.15 Measurement facilities, range, and instrumentation support
3.16 Acquisition logistics support
3.17 Supply and provisioning support
3.18 Training support
3.19 In-service engineering, fleet introduction, installation and checkout support
3.20 Program support
3.21 Administrative support
3.22 Public affairs and multimedia support
